

A visit to the Post Office

I got an opportunity to accompany the children in their educational visit to post office in Vasant Kunj on 20th August 2019.

All the children were very excited about the same. In the class , students had a circle time where the class teacher informed them about my things like post office, post card, post box, post master and showed them the logo of the Indian post. Teacher also asked children not to talk to strangers and not to take anything from them. Children were also told to be in the proximity of the class teacher.

We left school at 10 am and reached post office at 10:20 am. All the children were holding colourful post cards in their hands.

Some drew beautiful houses with birds flying above, some drew their family and so on. They got their respective post cards stamped in the post office and later dropped them in the post box outside the post office.

Enthusiastic Children stopped before entering the post office as they saw the post box outside the post office about which they heard through their class teacher in the circle time. Many of the children were surprised to see a lady post master as they were expecting

a male post master. I heard children speaking with one another and saying "Is this aunty a post master". Mrs. Pushpa the post master welcomed us very delightfully. She was then greeted with farm fresh vegetables from the school farm. She was quite affectionate and encouraged children by offering them toffees.

Children saw the pigeon holes where letters were sorted according to the pin codes. Children met all other post office officials too.

Children enjoyed dropping their post card in the post box the most. Then they got into the bus and came back to their school where they drew and painted all what they saw and observed during their educational visit to the post office.

I am thankful to the school authorities for giving me this opportunity to be a part of this educational tour. My special thanks goes to Deeksha Ma'am and other teachers.

Regards
