

Santa Maria Integrated Learning Environment

First Day At School

The school opened for the new entrants on Monday 3rd April 2017. The air soon filled with sounds of laughter and giggles as children made their way to the school for the first time. Dressed in school uniform with bags and bottles up on the shoulders children waited eagerly to see their classrooms and meet the teacher. Every child was carefully escorted to his/her respective classroom.

The day started by answering the roll call. Children were then given half an hour of freeplay time. Many children introduced themselves for the first time during circle time. While some preferred to just listen attentively. Energizing brought lot of fun and enjoyment for all.

Children took a walk around the school to see the spaces around like the school garden, play area, washroom and the music room.

Exploring the spaces within the classroom was a new experience for all children.

Amidst the green surroundings children went for outdoors. Indoors teachers kept them going with energizers and games.

It was a happy moment to see all children settle down by the second half. Story time was a high point of the day and was enjoyed by all.

We are happy to say that most of our children found their first day to school exciting and fulfilling. Some of our new entrants will surely take a little more time to adapt to the new environment. We will help our children overcome that very soon as we all look forward to a great time and bonding at Santa Maria.
